MacArthur Memorial Archives

MEMO TO: CinC

SUBJECT: Inquiry by Maj Gen. Ho-Shi-Lai

1. Gen. HO is a graduate of Leavenworth, Class of '34 when I was instructor and sponsor for the foreign officers attending the course. This has developed a certain degree of confidence. Based on this relationship, Gen. HO brought the following points to my attention. Note my replies, usually non-committal.

a. In what items could I improve past relationship as regards the Allied Council?

Examine position of the Chairman, Mr. Sebald, who normally acts under instructions of the CinC and support that position by direct vote. Oppose any moves by the Soviet Representative and take your cue from Mr. Sebald.

b. Possibility of purchase or direct assistance of spare parts?

Confer with Gen. Eberle, the G-4 who is cognizant of Washington policy and of stockage.

c. Special message from the Generalissimo thru Gen. MacArthur to be presented as soon as possible (Jun 15). "Generilissimo aware of the danger of his position is agreeable to accept American high command in every category and hopes to interest Gen. MacArthur to accept this responsibility, preferably for the entire Far East but specifically for Formosa and places himself and his people in every governmental level at the disposal of Gen. MacArthur, Soliciting his advice, guidance and direction".

Top level material to hold in absolute secrecy, request audience with the General thru ADC.
